Section 1. Letter of Invitation

Date: December, 2016

1. Introduction

The Government of India has envisaged the development of Delhi Mumbai Industrial Corridor (DMIC) along the alignment of proposed Multi-modal High Axle Load Dedicated Freight Corridor between Delhi and Mumbai, covering an overall length of 1,483 km. Further, Delhi Mumbai Industrial Corridor Development Corporation Limited (DMICDC), a special purpose company, was incorporated to establish, promote and facilitate development of the DMIC Project.

The Dholera Special Investment Region (DSIR) will be a major Greenfield Industrial Hub planned and located approximately 100 kms south of Ahmedabad and 130 kms from the State Capital, Gandhinagar. The project, as envisaged, will be the first initiative from DMICDC to create a linear zone of industrial clusters and nodes to be developed in the influence area of Western Dedicated Freight Corridor (DFC).

A SPV under Indian Companies Act 2013, Dholera Industrial City Development Limited (DICDL), has been formed with equity participation from Gujarat State Government and DMIC Trust and is responsible for implementation of the DSIR Project.

DSIR has been planned over an extensive area of land measuring approximately 920 Sq. kms., encompassing 22 villages of Dholera Taluka in the Ahmedabad District. This will be, by far, the largest of investment nodes planned along the influence of DFC in the DMIC region. This node is strategically located between the industrial cities of Vadodara, Ahmedabad, Rajkot, Surat and Bhavnagar urban agglomerates. The nearest international airport is at Ahmedabad and Government of Gujarat through the Dholera International Airport Company Limited (DIACL) has plans to develop another international airport in the Northeast of the proposed investment region. DMICDC, with support of DSIRDA, plan to create an economically and socially balanced new-age City with world class infrastructure and highest quality-of-life standards and sustainability in the urban form. This new age city aims to have a sustainable urban transportation system (transit oriented development) within and mobile/ efficient regional connectivity with neighbouring cities and the rest of the country.

For the DSIR, DMICDC has appointed AECOM as the Programme Manager for New Cities (PMNC). The role of the PMNC is to perform activities necessary to plan, integrate, package, administer and manage the implementation of DSIR projects. Specifically, the PMNC will be responsible for conceptualisation of projects and further, during the design and construction stage, overseeing the work of Consultants, and contractors, including reviewing, monitoring, resolution of interface issues, and reporting to the State nodal agency and the DMICDC on the programme progress. All deliverables from the consultants engaged on this project shall be submitted to the PMNC for final approval of DICDL. As an extension of DMICDC and

DICDL, the PMNC will be responsible for taking inputs from stakeholders and communicating them with the transaction advisors. In all day-to-day matters in respect of implementation of this assignment, the transaction firms shall report to the PMNC.

For trigger development of Dholera SIR, an Activation Area is identified as the catalyst for further investment and to attract local and global investors. Activation Area is spread across an area of approximately 22.5 Sq. km. It has approximately 72 kms of roads and has an optimum mix of land use comprising of industrial, residential, mixed use, recreation and tourism. The selected area has land available for immediate allotment. The Activation Area is approximately 4.25% of the total developable area of DSIR. It can cater to a residential population of 1.2 lakhs with an employment of approximately 80,000 persons by 2020. 80% of the Activation Area is in possession of DICDL providing ready to allot plots with all major trunk infrastructure at door step.

Accordingly, Dholera Industrial City Development Limited (Client) intends to empanel transaction advisors for investments in Dholera

Objectives

Dholera Industrial City is now moving into the implementation phase from a Project phase and is "Ready for Business"

The transaction advisors have to highlight the potential of Dholera by building on the location, large flat land parcels, infrastructure, planning, policies of the Government of Gujarat, sectorial focus, etc.

Basis above background, DICDL invites interest from globally reputed transaction advisory firms to empanel as transaction managers and advisors with DICDL to support with marketing the project and assist potential clients to occupy space at the DSIR.
